CFPB Consumer Complaint Analytics

How 10 million complaints reveal where fintech lead generation opportunities are hiding

Eliza Okome
Target Role: Junior Data Analyst · EPCVIP, Inc.

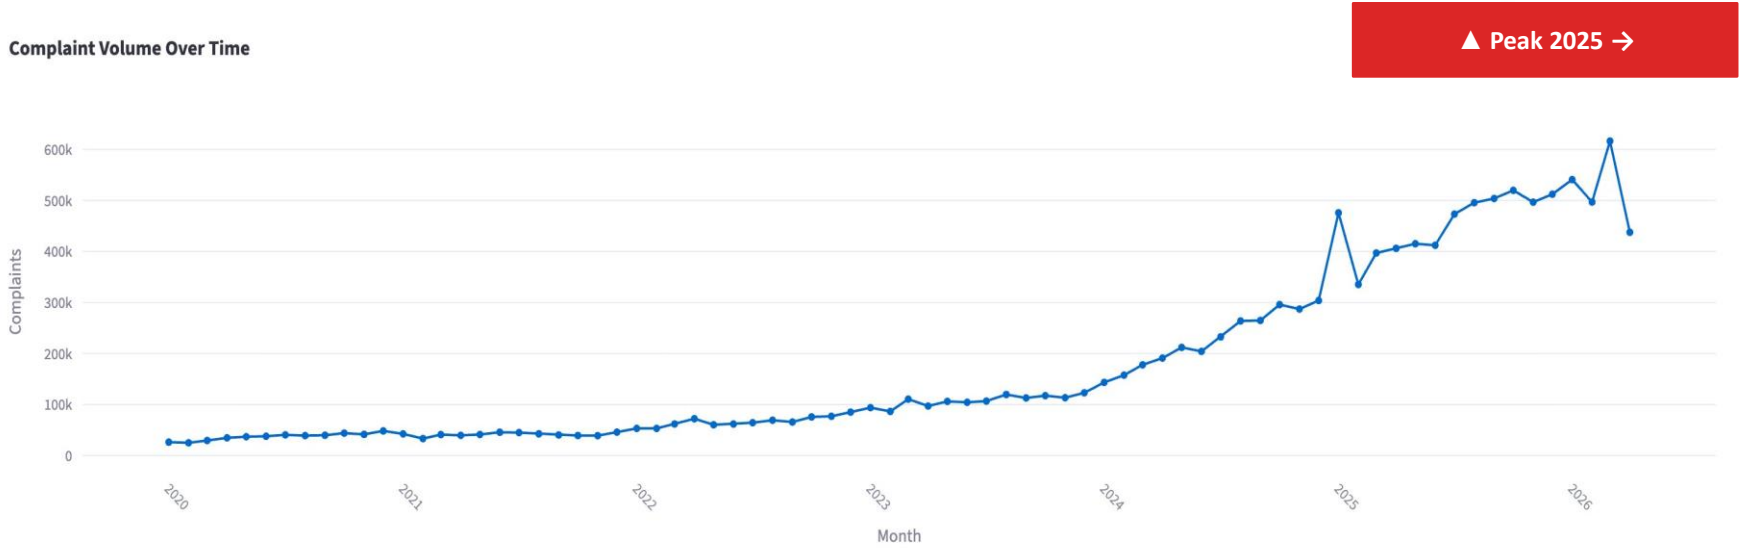
02

Complaint volume has surged 10× since 2020, accelerating through 2025

10M+
total complaints

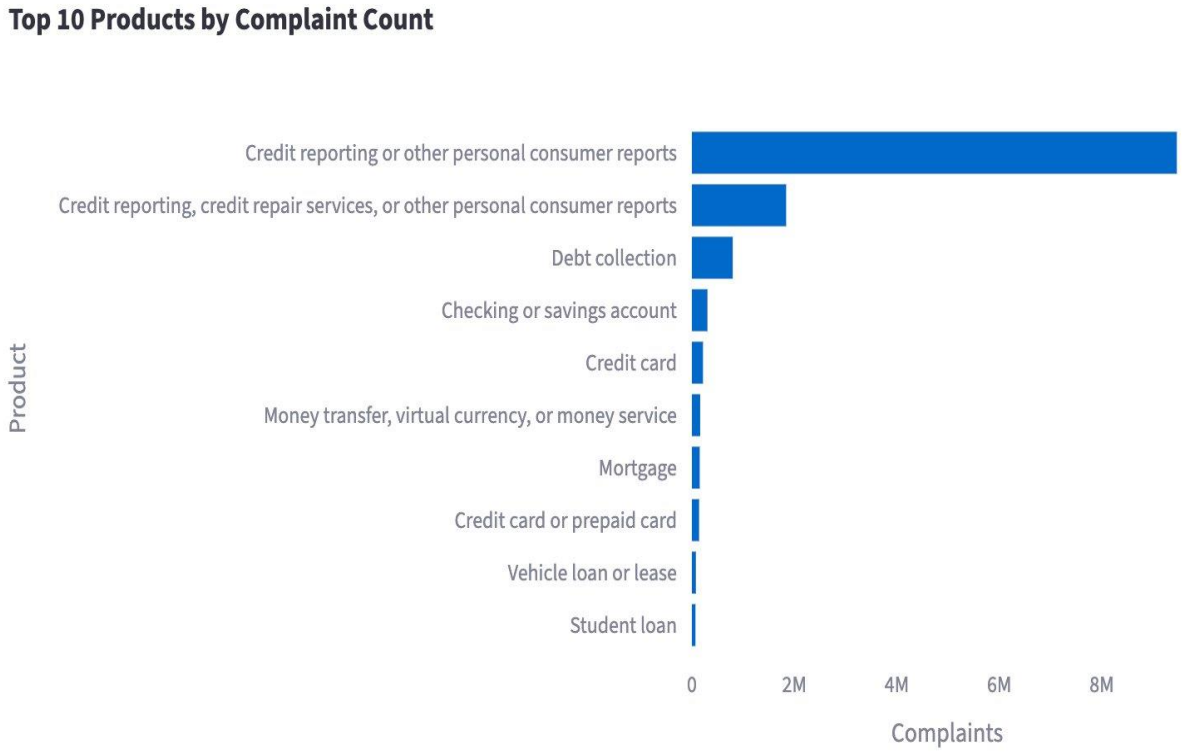
10×
growth 2020→2025

600k+
complaints in peak month (2025)



03

Credit reporting complaints dwarf every other product category



9M+

credit reporting complaints

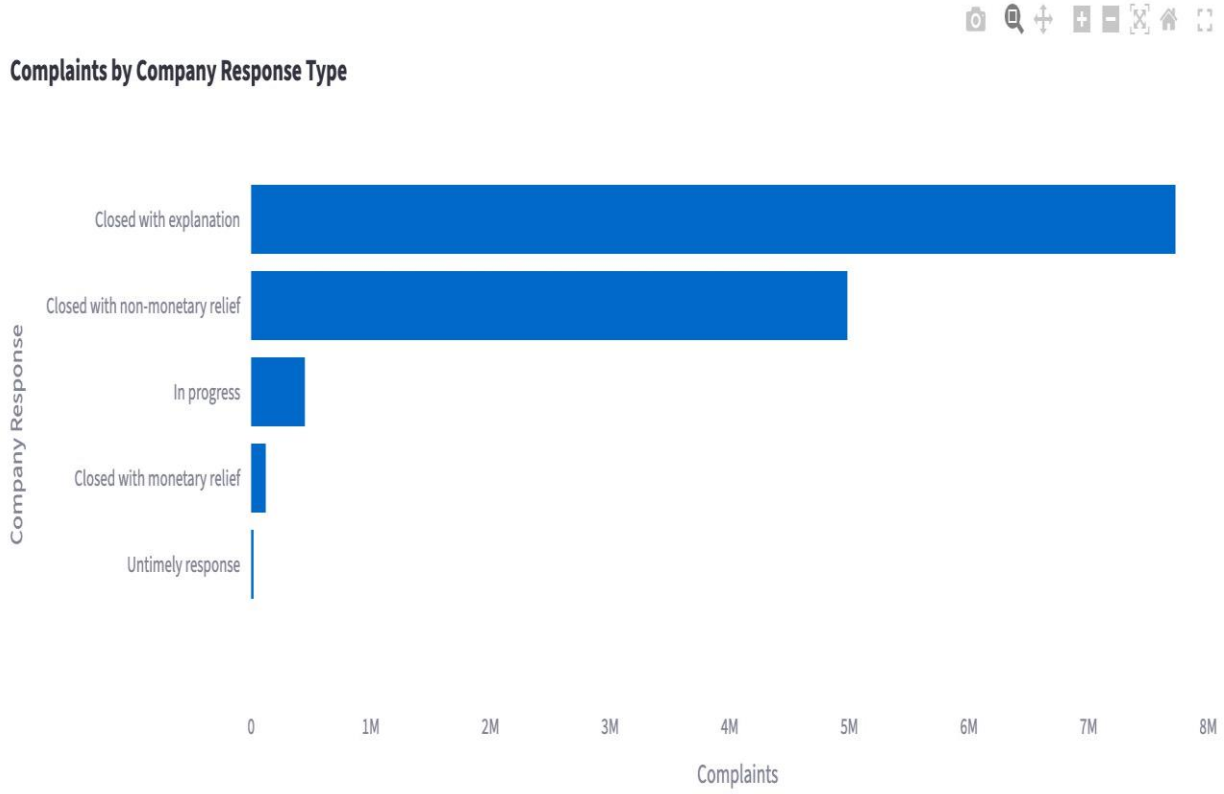
→ Credit reporting is EPCVIP's #1 targeting segment

→ Debt collection is #3 — high frustration, high lead demand

★ Highest ROI segment

04

Most complaints are closed with explanation — not monetary relief



8M+

closed with explanation only

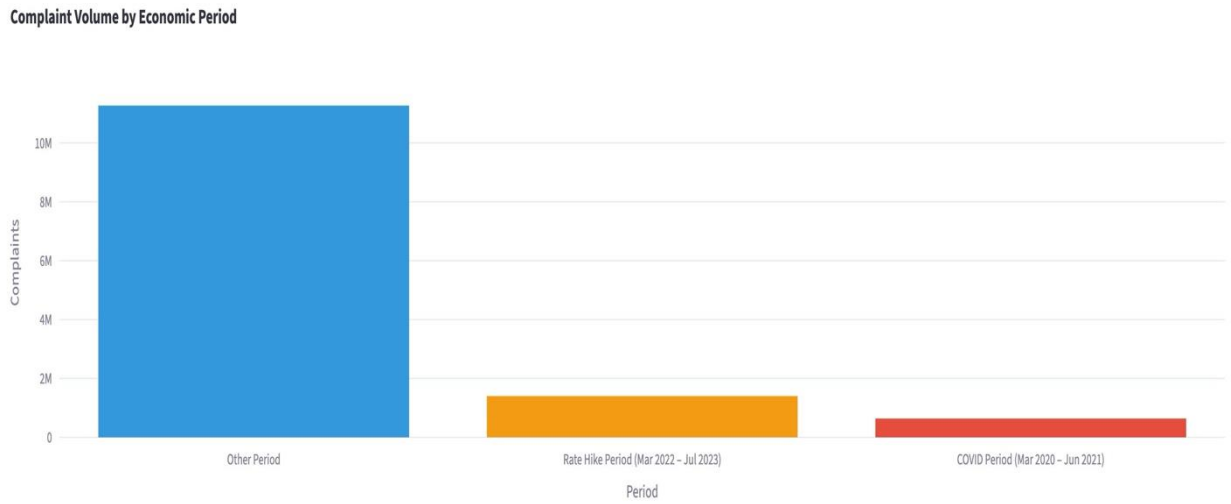
→ Consumers aren't getting financial relief — they're seeking alternative solutions

→ Unresolved frustration = high intent to switch providers — EPCVIP lead opportunity

★ High switching intent

05

The rate hike period generated more complaints than COVID — financial stress is the trigger



1.5M+

complaints during rate hike period

→ Rate hikes stress budgets → spike in debt & mortgage complaints

→ EPCVIP campaigns should scale during Fed rate adjustment windows
